

AESTHETICS @ PAMI'S BEAUTY

ANTI-WRINKLE INJECTIONS

Anti-wrinkle treatments are best known for reducing skin wrinkles. Full facial assessments are done before any treatments to the face and neck commence. As the product used is a neurotoxin, it is important to ensure that you as a client are very aware of the look you can achieve - and want to go for. It usually takes around 7-14 days to see the full effects of each treatment, with results lasting up to 4 months. A consult by a healthcare professional must be done prior to any treatment.

DERMAL FILLERS

When the first lines start to appear on the face it can be a stressful time for many women and increasingly more commonly now, men. Dermal fillers can also be used to increase the volume and definition of the lips and cheeks. Dermal Fillers contain hyaluronic acid which is a naturally occurring substance within the body which is found in the deep layers of the skin, and one of its functions is to keep skin smooth and healthy by helping it retain water. All lip enhancement prices include HD Lip, Doll Lip, Bstung Pout, Russian Lip).

Lip Enhancement	£199 per ml

£120

GLUTATHIONE INJECTION

Improves the appearance of the skin (including complexion, dark spots, freckles, uneven skin tone, blemishes, liver spots, and signs of ageing) Capable of reversing the dark melanin pigments in the skin (hyperpigmentation) Evens out melasma. Improves pigmentation from sun-damaged skin.

£45 per injection

NAD INJECTIONS

NAD injection is a shot of Nicotinamide Adenine Dinucleotide (NAD⁺), a coenzyme that helps your cells produce energy and repair themselves. It's often used for energy boost, mental clarity, anti-aging, or addiction recovery. It can be given intravenously (IV) or intramuscularly (IM). While some people report benefits, scientific evidence is still limited, and it's not FDA-approved for medical treatment. Always consult a healthcare provider before use. (Prices advised after consultation).

PRP TREATMENT (PLATELET-RICH PLASMA)

PRP is a natural treatment that uses your body's own healing power to rejuvenate skin, promote hair growth, and improve overall texture and tone. A small amount of your blood is processed to concentrate the platelets, which are then injected into targeted areas to stimulate collagen production and tissue regeneration. Ideal for fine lines, acne scars, under-eye circles, and thinning hair. (Prices advised after consultation).

SKIN REJUVENATION

SKIN PEEL FACIAL

A simple procedure with no downtime, this facial is recommended for early signs of sun damage and aging of the skin.

Recommended for open pores, fine lines, dryness and acne.

2 sessions £150

Vitamin B12 is an essential water-soluble vitamin that the body uses to maintain healthy nerve cells. B12 has been proven to improve fatigue, shortness of breath, brain and cognitive function, cholesterol and stabilise moods.

£45

VITAMIN D INJECTION

Vitamin D helps regulate the amount of calcium and phosphate in the body. These nutrients are needed to keep bones, teeth and muscles healthy.

£45

IV DRIP THERAPY AT OUR CQC-REGISTERED PREMISES

We offer safe, effective IV drip treatments delivered by qualified healthcare professionals in our CQC-registered clinic.

All treatments are:

- Prescribed after a medical consultation
- Administered by registered clinicians (nurses or doctors)
- Carried out in a clean, clinical setting
- Supported by emergency equipment and protocols
- We follow strict guidelines for infection control, patient safety, and informed consent. Our IV therapies aim to support hydration, vitamin replenishment, and overall wellness—but are not a substitute for medical care.
- Your safety and wellbeing are our top priority.

(Prices advised after consultation)
